## LUCIDO ECO

### GENERAL DESCRIPTION

Perfumed polisher for dashboards, plastic parts, bands, car roof with **WATER-REPELLENT** action.

### FEATURES

**LUCIDO ECO** restores the primitive splendor to the treated surface. It leaves on the treated surface a shiny, protective, perfumed and antistatic film that resists and repels water. Contains: polishing substances <98%, perfumes <2%. It does not contain hydrocarbons or silicones. Suitable for use in body shops. It is also used in the dispensing machine for cloths soaked in product (Pannomat)

### DOSAGE

The product is ready to use. Apply with a dry sponge slightly soaked in the product or spray finely. Use a dry cloth to remove excess product. The product is not to be considered dangerous according to EC regulation 1272/2008 (clp) and subsequent amendments.
